//

Classical musician bringing creativity and collaboration to Quality Assurance Engineering.
Experienced in Agile, Kanban, Jira, Git.

Roles

SDET Engineer, interviewstream   2019-present
- Python, Behave, BDD testing, Php, Javascript, Selenium, AWS, Git
- I work concurrently in each sprint with 2 dev teams and product managers to create test automation and functional testing for the front-end of our application and for one of our API's.
- Help to create and maintain internal documentation using Jira for overall product knowledge.

Jr. Fullstack Web Developer, interviewstream   2018
- Linux, Apache, AWS, MySQL, Php, Javascript
- interviewstream is a SaaS product, and a digital interviewing product suite.
- Worked on finding and fixing bugs throughout our codebase, whether it was server-side, database issues, or front-end related.

Education

Northwestern University   April - October 2017
Full Stack Web Development Certificate
- 6 month class dedicated to designing and building web applications. HTML, CSS, Javascript, jQuery, Bootstrap, Materialize, Firebase, Node JS, MySQL, Express, Handlebars, React.

Northwestern University   2011-2013
Master of Music: Horn Performance
- Graduate Assistant for Horn studio: Managed 20 undergraduate and graduate students in the Bienen School of Music for Professor Gail Williams.

University of Wisconsin-Madison   2007-2011
B.A. in Horn Performance with Environmental Science Minor

Open Source Contributions

Automattic/wp-calypso Github repository.
- This is WordPress' JavaScript and React development repo on Github. I opened this pull request to add a feature that enables users to change their homepage using a dropdown menu.

Passion Projects

First horn, Northshore Concert Band. Member since 2018. NCB is internationally known for its musical excellence, leadership in community music, and commitment to music education.
